Appalachian State University is an affirmative action and equal employment opportunity employer. The university does not discriminate in access to its educational programs and activities, or with respect to hiring or the terms and conditions of employment, on the basis of race, color, national origin, religion, creed, sex, gender identity and expression, political affiliation, age, disability, veteran status, or sexual orientation. The university actively promotes diversity among students and employees. The university is committed to its affirmative action plans and seeks to deepen its applicant pools by attracting interest from diverse, qualified individuals.

The Recruitment and Selection Procedures for Faculty and Non-faculty EPA Positions contain university policies and procedures to guide search committees as they prepare for and conduct successful searches for EPA positions. The document also contains suggestions and recommendations for recruiting and hiring individuals from groups that are underrepresented at Appalachian.

The Office of Equity, Diversity and Compliance (EDC) is responsible for ensuring that the university is in compliance with federal and state laws, executive orders, and institutional policies and procedures pertaining to affirmative action (AA) and equal employment opportunity (EEO) matters. The director of AA/EEO compliance (the director of compliance) is available to advise and assist university community members on all matters related to AA/EEO programs and compliance guidelines, including searches for EPA employees.

I. Covered Positions

These procedures apply to hiring for all EPA positions – tenure-track and fixed-term faculty, nonteaching faculty and professionals, research associates, and administrators. The procedures apply to any EPA position that involves at least seventy-five percent (75%) time.

Equal opportunity and affirmative action principles dictate that our searches must be expansive and open. Generally, EPA positions must be advertised nationally for a minimum of 30 calendar days. Upon approval from the director of compliance, searches may be limited to regional or local advertising and/or advertised for less than 30 calendar days depending on the circumstances. In addition, internal searches may be approved by the director of compliance and the appropriate hiring administrator in limited circumstances.

No search is required when filling an EPA position that is less than seventy-five percent (75%) time, extending a fixed-term appointment for a limited duration, or where a Principal Investigator or Co-Principal Investigator has been named in a grant or contract and the award is contingent upon the individual(s) named serving in that capacity. No search is required for a promotion or upgrade in administrative title where the employee’s qualifications, skills, and/or additional duties justify an upgrade and the person promoted or upgraded in title is more qualified than the other employees in the unit or department (e.g., assistant director to associate director, coordinator to director). Similarly, no search is required for faculty promotions (e.g., assistant professor to associate professor, associate professor to full professor), although such promotions must follow the procedures specified in the Faculty Handbook.
Search requirements may be waived, in whole or in part, in special circumstances, including, but not limited to, the following:

1. There is insufficient time to conduct a full, competitive search, and the hiring administrator can identify a pool of one or more qualified candidates.
2. The hiring administrator wishes to make an interim academic or administrative appointment for a finite period while a full search is conducted.
3. Hiring is needed to fill unanticipated openings or vacancies, including, but not limited to, grant positions, post-doctoral positions, and those resulting from leaves of absence, medical emergencies, deaths or resignations.
4. Administrators seek to hire faculty or EPA administrators to fill part-time, temporary or time-limited positions including, but not limited to, assistant deans, associate deans, and directors of administrative units.
5. The hiring administrator wishes to make an exceptional hire where the university has the opportunity to hire someone with outstanding skills and experience along with the following factors: 1) experience working with diverse populations; 2) academic scholarship; 3) teaching; 4) exceptional achievements; 5) outstanding leadership and service; or 6) other special talents so as to confer a distinct benefit to the institution’s mission.

Departments and units wishing to conduct an internal search, limited external search, or no search must review the Policy for Requesting a Waiver of EPA Recruitment Procedures and submit a Request for Waiver of EPA Recruitment Procedures to the appropriate university officials. See Attachment A.

II. Organizing the Search Committee

Prior to beginning a search, the hiring authority will appoint the search committee. For faculty searches, chair searches, and searches for Category 1 and Category 2 Administrative/Academic Personnel, the search committee will be established or constituted in accordance with the Faculty Handbook. See Section 4.1, Faculty Handbook. In academic departments where search committees are not utilized, the departmental personnel committee (DPC) shall serve as the search committee. The hiring authority or the search committee or the department will appoint or elect a chair who plays a critical role in the recruitment and hiring process as he/she sets the tone and pace of the committee’s work, represents the committee to all constituents, and delivers final recommendations to the hiring official, or, in the case of faculty search committees or DPCs, to the DPC or the departmental chair, depending on the reporting chain determined by the department.

To the extent feasible and consistent with the criteria for membership in a search committee, departments or units should endeavor to include on the search committee women and individuals from underrepresented groups, as well as individuals who are committed to and/or have experience with enhancing diversity in the university community. In order to ensure consistent and accurate compliance with AA/EEO requirements during EPA searches, all members of the search committee should attend an information session with the director or her designee to review the EPA search procedures. Information sessions will be scheduled on a regular basis through EDC. In addition, upon request, the director of compliance or her designee will meet with any EPA search committee at any point in the search process.
For faculty searches, equal opportunity associates (EOAs) are responsible for working with the department or unit toward achieving the objectives of nondiscrimination and affirmative action. The EOA serves as a liaison between the director of compliance and the department or unit.

Search committees must conduct their meetings in accordance with the rules outlined in the most current edition of Robert’s Rules of Order, unless exceptions to these rules are noted in this document or the latest edition of the Faculty Handbook.

A checklist is provided to assist search committee members with the steps involved in the EPA search process. See Attachment B.

III. Creating the Job Advertisement and Recruitment Plan

The search committee must prepare and/or review a detailed job announcement containing minimum and preferred qualifications. The committee should develop objective selection criteria based on the position requirements. The search committee should discuss timelines for the search, including the initial review date, interview schedules, and target dates for submitting hiring recommendations.

All position descriptions must include the following statements:

“Appalachian State University is an Affirmative Action/Equal Opportunity Employer.”

“Individuals with disabilities desiring accommodations in the application process should contact [insert name of search committee chair]."

"Proper documentation of identity and employability will be required before the hiring process can be finalized.”

Search committees may want to consider including one of the following statements as well:

“The university has a strong commitment to the principles of diversity and inclusion, and to maintaining working and learning environments that are free of all forms of discrimination.”

“In support of its commitment to inclusive excellence through diversity and equity, the university strongly encourages applications from women, minorities, individuals with disabilities and members of other underrepresented groups.”

Job advertisements should also include a statement regarding the date that review of complete applications will begin: “Review of complete applications will begin on [insert date] and will continue until the position is filled.”

For assistance with preparing faculty job announcements, please refer to the memorandum and template from Provost and Executive Vice Chancellor Stan Aeschleman, dated [insert date]. See Attachment C.

For assistance with preparing job announcements for other EPA positions, please contact the director of compliance.

In order to comply with our AA/EEO recruitment and hiring goals and obligations, it is imperative that search committees create recruitment plans designed to broaden the applicant pools of qualified
individuals and attract individuals from groups that are underrepresented at Appalachian. And it is critical that we have accurate records that document these efforts. Search committees should devote some meeting time to brainstorming about possible outlets for recruitment – national publications, regional publications, professional journals and newsletters, e-mail lists, contacts at Historically Black Colleges and Universities and other institutions that serve groups who are underrepresented at Appalachian, institutions that enroll significant numbers of doctoral and terminal degree students from underrepresented groups, and contacts at other institutions in the USA and abroad. For information on possible recruitment outlets, please review the recruitment resource list on the compliance web site [insert address].

After the search committee formulates the position announcement and the recruitment plan, the chair must complete and sign the “EPA Job Description Form and Recruitment Plan” (Form 1). See Attachment D. Please complete fully the Recruitment Plan Section of Form 1, and attach additional pages as needed. Form 1 must be reviewed and signed by the department chair/director, the dean (if applicable), the director of compliance, and finally the vice chancellor or designee. After all signatures have been obtained, the vice chancellor’s office forwards a signed copy to the search committee chair and EDC.

This form must be completed, signed, and returned to the search committee chair prior to advertising the position.

IV. Advertising the Position

Upon receiving an approved copy of Form 1, the search committee may post the job advertisement. EDC automatically posts all EPA job announcements in five (5) online locations: Appalachian HRS site, The Chronicle of Higher Education, InsideHigherEd.com, Diverse Issues in Higher Education (diversejobs.net), and the North Carolina Employment Security Commission. The university pays for these advertisements; all other advertising costs must be covered by the unit, department or college that is conducting the search. After the search committee obtains all approvals for a job announcement on Form 1, please send an electronic copy of the job announcement to Robin Waters (watersre@appstate.edu) in EDC for posting. Generally the position will be posted within two (2) days of receipt of the job announcement.

In order for the university to be permitted by law to hire international candidates who are not citizens or permanent residents, all EPA job advertisements must appear in print in at least one national publication (or regional or local publication upon approval). Please indicate on Form 1 the name of the source that will publish the print advertisement. The print advertisement may be a short announcement that refers the reader to a more detailed online advertisement. For example:

Director of Disability Services: The Office of Disability Services at Appalachian State University seeks to fill a position for director of the Office of Disability Services. For information, please visit our web site at http://www.hrs.appstate.edu/employment/epa.php

Hiring departments should keep one copy of the print advertisement and one copy of all online advertisements for each position filled. Retain these documents in an easily accessible location; copies of these advertisements are required when processing employment documents for international hires.
V. Communicating with Applicants

Applicants are normally instructed to send applications directly to the search committee chair or a search committee designee. Upon receiving a complete application, the search committee chair is responsible for sending the applicant an acknowledgment letter along with a request that the applicant complete an “Affirmative Action Data Request Form” (AA Form) located on the EDC web site. See Attachment E. The letter should include a reference to the position number of the position to be filled. Please advise applicants that submission of the AA Form to EDC is voluntary and the information will be kept separate from their applications.

Confidentiality must be maintained throughout the search process, including, but not limited to, the identity of applicants, submitted application materials, reference checks, interviews, committee discussions and deliberations, short list determinations, and final offers. Information gathered during the search process may not be shared with others in the department or unit who do not serve on the search committee without written permission from the applicants. Search committee members should not engage in discussions about the applicants or the submitted application materials outside the confines of a search committee meeting – the only legally-privileged setting for discussion of confidential information related to a search.

While interviewing applicants at professional conferences, members of a search committee may not engage in evaluative conversations with one another about the applicants. Rather, search committee members should record their impressions, observations, and assessments about the applicants, and share this information at the next search committee meeting. As the Faculty Handbook requires all search committee meetings to take place on campus, professional conferences may not serve as a meeting place for search committees.

Should the search committee wish to share application materials with others who are not on the search committee, e.g., faculty in a department, the search committee chair must obtain written permission from the applicants before the materials can be shared.

VI. Reference Checks and Telephone Interviews

After the search committee narrows the field of viable candidates who may be considered for on-campus interviews, the search committee chair should telephone each candidate concerning the following items: 1) inform the candidate that he/she remains under consideration and ascertain whether the candidate is still interested in the position; and 2) inform the candidate that the committee will be calling both the indicated references and non-indicated references which may include the candidate’s immediate supervisor. The chair must receive written permission from the candidate to call indicated references, non-indicated references, and the candidate’s immediate supervisor. This may be accomplished via e-mail or fax. On occasion, individuals may refuse to give a reference without a written release from the applicant. In situations where a reference requires a written release before providing information, the chair of the search committee may contact the applicant and request a written release. A sample release is attached for your use. See Attachment F.

The committee should identify members who will conduct the reference checks and create a list of questions to ensure equity and consistency. Questions must be related to the qualifications and responsibilities advertised in the position vacancy announcement. A list of permissible and impermissible topics is attached. See Attachment G. Each member of the committee should call
approximately one-half of the indicated and non-indicated references for one or two candidates. All answers should be recorded in writing and archived with the search committee materials at the end of the search.

Reference information is confidential and should not be shared with anyone other than the members of the search committee. A summary of reference information may be provided to others, e.g., faculty in a department, but the summary should not attribute any comments to a particular referee.

Prior to or after conducting reference checks, search committees may choose to conduct phone interviews or video conferences. Adding this step may provide the search committee with valuable information that will assist the committee in narrowing its final pool of candidates for on-campus interviews.

VII. Creating the Interview List

When the field of candidates has been narrowed to the number of candidates who will be invited for an interview, the search committee chair must complete an “Interim EPA Recruitment Report” (Form 2) before scheduling interviews. See Attachment H. The form must be completed fully and approved by the department chair/director and the director of compliance. The purpose of this form is to provide information regarding which applicants have been eliminated from consideration and the reasons behind the decisions. The information will help us determine the degree to which we are attracting a diverse applicant pool, and ensure that we are eliminating applicants from further consideration based on objective, nondiscriminatory factors. The information from the AA Forms will be used by EDC to complete Form 2 and the Applicant Flow Form, and to evaluate the effectiveness of the recruitment process. The information from the AA Forms regarding individual applicants cannot be shared with the search committee. However, a summary of the data from the AA Forms will be available to the search committee. Candidates should not be invited for interviews until the search committee chair receives a copy of the approved Form 2 from EDC.

VIII. On-Campus Interviewing

Develop an interview schedule that follows a consistent format for each candidate and ensures an equitable process. Identify all individuals and groups who will be involved in the on-campus interviews. Schedule the campus visit and provide all interested campus individuals and groups with a copy of the interview schedule and background information about the candidate. The search committee may seek feedback from non-committee members who participate in the on-campus interviews, and it is recommended that the committee provide a feedback sheet for this purpose. The written comments should be considered at the next search committee meeting and be added to the search committee file.

IX. Selecting the Final Candidate

After all candidates have been interviewed, the search committee must meet to deliberate and vote on the candidates who will be recommended for hire. The voting must be done in accordance with Robert’s Rules of Order and all votes recorded in writing. The following suggestions are offered to assist with the voting process:

- The name of only one interviewee may be moved in a single motion.
The chair of the search committee or the EOA counts the votes (written ballots) and reports the results to the committee.

- A simple majority vote (or a seventy-five percent (75%) vote as required by the Faculty Handbook) will send an interviewee’s name to the hiring administrator.
- A non-binding straw vote by secret ballot may be helpful when seeking focus or consensus prior to any official vote.
- Official votes are final and binding.
- All ballots must be retained by the chair and placed in sealed envelopes – one envelope for each vote.

When the search committee has concluded its deliberations and is ready to make its recommendation(s), the chair must complete a separate “EPA Compliance Report” (Form 3) for each person recommended, along with supporting documentation, and send the reports to the applicable administrators. See Attachment I. The recommendations of the committee may be listed in priority order, but the order is not binding on the hiring administrator.

When hiring is approved, it is the responsibility of the chancellor, the provost, or the appropriate vice chancellor to issue the contract and to receive the signed contract.

After the offer has been accepted, the search committee chair notifies all other applicants that the position has been filled. EDC should be notified by e-mail (watersre@appstate.edu) that the position has been filled or the search has failed.

X. Documenting the Search

The search committee file must be retained for three (3) years after the search has ended. The chair of the search committee must gather all materials related to the search and forward the materials to University Archives and Records for storage. Applicable forms are found on the university’s electronic forms page under “University Archives and Records” [insert link] as well as on the compliance web site [insert link]. The file should include, but not be limited to, the following documents: a list of members of the search committee, the job announcement, all applications and supporting materials, correspondence, notes of committee members, lists of interview questions, rating sheets and/or lists of criteria, reference checks, records of votes, and the list of candidates recommended for hire.

When a search results in the hiring of an international candidate who is not a citizen or permanent resident, the chair of the search committee must complete additional paperwork and submit a report to the Office of International Education and Development (IED). For more information, please contact Bob White in IED by email (whitera@appstate.edu) or by phone (262-2046).

Thank you for taking the time to review this material. Please do not hesitate to contact EDC if you have questions or need further information.

Policy for Requesting a Waiver of EPA Recruitment Procedures
Appalachian State University
Office of Equity, Diversity and Compliance

The university is committed to equal employment opportunity and affirmative action practices and principles, and hires without regard to race, color, age, sex, creed, religion, national origin, disability, sexual orientation, or veteran status. Consistent with these principles, the university has established procedures for recruiting and hiring EPA faculty and administrators that are designed to increase our applicant pools and attract interest from diverse, qualified individuals.

Generally EPA positions are filled through external national searches that incorporate a comprehensive recruitment plan in accordance with the Recruitment and Selection Procedures for EPA Faculty and Administrators issued by the Office of Equity, Diversity and Compliance. However, there may be situations where the needs and goals of the university require a temporary or permanent waiver of the EPA recruitment procedures in order to fill an EPA position. These situations might include the following:

1. There is insufficient time to conduct a full, competitive search, and the hiring administrator can identify a pool of one or more qualified candidates.
2. The hiring administrator wishes to make an interim academic appointment for a finite period while a full search is conducted.
3. Hiring is needed to fill unanticipated openings or vacancies, including, but not limited to, grant positions, post-doctoral positions, and those resulting from leaves of absence, medical emergencies, deaths or resignations.
4. Administrators seek to hire faculty or EPA administrators to fill part-time, temporary or time-limited positions including, but not limited to, assistant deans, associate deans, and directors of administrative units.
5. The hiring administrator wishes to make an exceptional hire where the university has the opportunity to hire someone with outstanding skills and experience along with the following factors: 1) experience working with diverse populations; 2) academic scholarship; 3) teaching; 4) exceptional achievements; 5) outstanding leadership and service; or 6) other special talents so as to confer a distinct benefit to the institution’s mission.

All requests for a waiver of EPA recruitment procedures must be pre-approved by the appropriate vice chancellor. The hiring administrator then must complete a Request for Waiver of EPA Recruitment Procedures with written justification that explains the legitimate nondiscriminatory reasons for such a waiver. Where a request is made for a temporary waiver, the appointment will be made for one year with an opportunity to renew the waiver for an additional one-year period. The Request for Waiver must be approved by the department chair/director, dean (if applicable), director of compliance, and appropriate vice chancellor.

MEMORANDUM

TO: Deans and Department Chairs

FROM: Stan Aeschleman
Provost and Executive Vice Chancellor

DATE: [insert date]

SUBJECT: Template for Advertising Faculty Positions

Attached is a sample template for advertising faculty positions. The idea for providing such a template emerged from observations by deans and other administrators that Appalachian's advertisements have been inconsistent and sometimes inaccurate in their descriptions of the university and of faculty responsibilities. Departments are not obligated to use the exact wording of this template, but they are responsible for including the items listed below, unless the appropriate dean approves an exception. Deans' offices are expected to monitor the quality of the ads and the inclusion of the required items.

1. The department or area in which the position is located
2. The nature of the position (e.g., nine-month tenure-track)
3. Proposed rank or range of ranks
4. Beginning date of appointment
5. Minimum and preferred qualifications
6. Duties outside classroom teaching, generally including but not limited to
   a. Scholarship or creative activity
   b. Service
   c. Advising
   d. Curriculum development
   e. On-line instruction and/or instruction at off-campus sites
7. An accurate description of the department and university (or links to appropriate web sites)
8. Specific contents of application
9. Person and address to whom application should be sent (specify whether materials may be submitted electronically)
10. Initial date for review of complete applications
11. The following AA/EEO statement: "Appalachian State University is an Affirmative Action/Equal Opportunity Employer. The university has a strong commitment to the principles of diversity and inclusion, and to maintaining working and learning environments that are free of all forms of discrimination."
12. The following additional statements: "Individuals with disabilities may request accommodations in the application process by contacting [search committee chair]. Documentation of identity and employability of the applicant will be required before the hiring process can be finalized."

In order to meet Department of Labor regulations concerning international hires, we have been advised to continue to post at least one print ad in a national publication. However, print ads can be extremely minimal, with links to web-based position descriptions.
Template for Tenure-Track Job Description

The [Department/Area] at Appalachian State University invites applications for a tenure-track nine-month faculty position at the rank of [preferred rank(s)] beginning August 2009. 7/2008
MEMORANDUM TO: Faculty Senate
FROM: James Denniston
DATE: April 18, 2008
SUBJECT: Faculty Annual Report Form Modifications

Last fall, the faculty senate formed an ad hoc committee to study the revision of the Faculty Annual Report (Motion FS 07-08/12-01). Committee membership consisted of Dr. Jim Denniston (chair), Dean Harbinson, and Senators Mamlin, Stallworth, and Williams. Over the course of the Spring 2008 semester, the Faculty Annual Report Committee met on four occasions to discuss both the revision of the faculty annual report and to recommend modifications to the on-line faculty activity reporting database. The committee recommends adoption of the revised Faculty Annual Report (see attached).

The revised report is designed to both standardize faculty activity reporting and to minimize faculty time and effort in generating the annual report. Faculty Annual Reports will be generated by the Activity Insight database that is being customized for use at Appalachian. The use of a standardized form will ensure consistent reporting of activities across faculty. The proposed annual report will consist of six sections: 1) Teaching; 2) Research & Creative Activities; 3) Faculty Development; 4) Administrative Assignments; 5) Service and Community Connections; and 6) Awards & Honors. For each category, a sum of activities completed and a listing of individual activities will be provided. These data will be pulled from the database into the report form, thereby minimizing faculty effort in generating the annual report.

The proposed annual report form does not include sections for self-evaluation, student evaluations of teaching, grade distributions, major concerns/goals, or planning for the following academic year. These sections were omitted from the annual report as the committee felt that these reflective statements and evaluation of instruction should be discussed and evaluated at the departmental level. Our committee recommends that each department develop a short form that would facilitate review of these items in the faculty member’s annual meeting with his/her department chairperson.
